

# SW60

## Natural treatment for horses

### Trial 2

**Veterinarian: Dr. Larry Agle**  
**Patient: 15 Year Old Paint Gelding**

**8/31/17**

Presenting complaint: Puncture wound to the RF lateral side of the ankle. Upon examination Dermatitis and fungus were noted on LF limb. Cleaned affected area and dried thoroughly before application of SW60. Treatment plan was to keep the affected area clean and dry. Apply SW60 1 time daily for one week.

**9/5/17**

Recheck wound and dermatitis/fungus, dermatitis improved at only 5 days of treatment with SW60, along with keeping the area clean and dry.
